

Zinc Oxide Zn-72 | Zn-75 | Zn-78

Guaranteed content: Zn – 72% | Zn – 75% | Zn – 78%

Description and performance

Zinc content in feeds, especially plant ones, is low and thus insufficient for correct development of animals. Supplementing the dose of zinc supplied to animals with **Zinc Oxide Feed Grade** covers the animals' nutrition needs, ensuring their correct development.

Composition

Symbol	Zn - 72	Zn - 75	Zn - 78
	content [%]
